

Attention FCC,

I write in regards to Sinclair Broadcasting's failure to act responsibly as a media outlet. Sinclair's choice to force all of their stations (reaching around 24% of America) to air the political documentary which is anti-Kerry is intolerable and as far as I am concerned represents a serious drawback of media conglomerates. They are choosing to use their 'power' to attempt to alter and direct a national election and that is not right.

Sinclair uses the public airwaves free of charge, and therefore is required by law to serve the public and not to take advantage of that gift. I am concerned that large companies are so easily able to control the airwaves and are only serving their own corporate interests. We need more local matters and we don't need a large conglomerate abusing the fit of the free public airwaves.

I am not a democrat and I don't feel this is a political issue whatsoever. Whether it is against or in favour of Kerry or President Bush the FCC cannot allow any company of this size to take such clear advantage of what the public is entrusting to them. I ask the FCC to strengthen the ownership rules of the media to protect us all. The FCC was created to serve as the ultimate equalizer of these affairs and I am only asking that you do that and that you step in and force all of the media to abide by the laws and guidelines they agreed to follow for the betterment of the public as a whole.

Thank you for your time and the hard work all of you at the FCC put in each day to serve each of us.
